## PROFESSIONAL HISTORY

**Project Name: Certificate Generator Application**

**Client: Chasindreams, Sensations Solutions**

**Technologies:** Laravel, VueJS, SQL, HTML5, CSS3

**Description:** The app takes in details from an eye donation volunteer and generates a “Certificate of Appreciation”. The app uses Laravel Sanctum for authentication and a dashboard interface to allow the client to view, edit the data for the donors.

**Role:**

- Design and implementation.
- Unit testing and fixed bugs in the application.

**Project Name: Bluelink website & CMS**

**Client: Bluelink, Sensations Solutions**

**Technologies:** Laravel, VueJS, SQL, HTML5, CSS3

**Description:** Integrated website HTML design into a Vue SPA which displays data from the CMS app via Rest APIs. Uses Laravel as backend and Vue for CMS app to allow client to edit the content on the website.

**Role:**

- Design and implementation.
- Unit testing and fixing bugs in the application.
- Maintenance and support.

**Project Name: Breezair Custom Themed Wordpress site**

**Client: Breezairme, Sensations Solutions**

**Technologies:** WordPress, SQL, HTML5, CSS3

**Description:** Built custom WordPress theme from website HTML design. Created custom Post Types and Taxonomies to allow the client to add their Products, define Product Categories and created methods to filter and sort the Custom Post Types.

**Role:**

- Design and implementation.
- Unit testing and bug fixing.
